TRUST SCORE

90 /100

RISK LEVEL

LOW

Risk is derived from official safety signals (ratings and recalls) and heuristic scoring.

This Trust Score is calculated using available federal safety data (specifications, ratings, and model safety campaigns). For VIN-specific recall status, visit nhtsa.gov/recalls.

Value of This Report This report analyzes more than 150 official data points from the NHTSA (U.S. Department of Transportation). LionCar processes the complete federal dataset and presents only the most relevant indicators - those that directly impact the vehicle safety, reliability, and risk level. All information is derived from official public data sources of the United States Government.
